

The FARM TRIBUNE

Vol. XVII, No. 11

PUBLISHED WEEKLY — PORTERVILLE, CALIFORNIA

Thursday, August 29, 1963

WORK IS well underway on the extension of Olive avenue from Fourth street across Porter Slough and the Santa Fe railroad tracks, to Plano Road — a project of the City of Porterville that utilizes state gas tax funds. It is hoped a second project — construction of the Porterville Armory with state-federal funds, will be underway soon. Above photo gives an idea of the layout of the area in which these improvements are planned or are underway. (Farm Tribune-Grant Air Service photo)

WATER FROM bank to bank in the Tule River late in August? Maybe it never happened before, but it is happening now as a result of greatly extended season silt of flow from stored water in Success Lake. Photo shows the Tule in the area of Olive avenue crossing. (Farm Tribune-Grant Air Service photo)

Editorial Comment

THE COLLEGE GETS PREFERENCE

Announcement of trustees of the Porterville Union High School and College district that emphasis will be placed on Porterville college buildings is commendable and desirable, for it's time — past time, really, that the college became a college.

Not that Porterville college has lacked certain advantages. It has always maintained a high academic rating; students, over a period of more than 30 years, have consistently looked good in four-year colleges and universities after taking their first two years at Porterville college.

And the fact that Porterville has a college has been of considerable financial advantage to many families, since young men and women have been able, in some cases, to get two years of higher education that they might not have had, while other students going on to school have received a solid foundation in higher education while still living at home.

So Porterville college has always had considerable to offer, but somehow or other it has never really moved ahead as it should. Other junior colleges have expanded around it, slowly cutting down Porterville's legitimate area; the building program has, of necessity in recent years, been secondary to that of the high school.

But now, from a physical plant standpoint, the college is going to move into a three-year building program. This, we think is good, because the college program should be strengthened and further diversified in the process.

Also, it sort of "clears the air" in one spot to know what plans are for the college.

After all, this community faces some pressing school problems that seem to be coming to a head all at once.

The high school will require a second campus in the not too distant future; in fact initial planning is already underway and land has been purchased.

The Porterville Elementary system is going to need financial help; other elementary districts within the Porterville High School and College district also have the problem of expanding and improving. (What school district doesn't, these days?)

So there are school problems ahead — problems that might well be approached on a community-wide basis rather than on a district-by-district basis. For with an increasing scramble for money, it is logical that a total school plan, from kindergarten through junior college be considered by people of the community. Otherwise, someone will get lost in the confusing shuffle.

We think the college is moving in the right direction. We hope that the idea of a community-wide, across the board planning system can be worked out for the total school program in the area.

CALIFORNIA SPEAKS

ASSEMBLYMAN ALAN PATTEE, Salinas — "It beats me why the governor wants to cram a withholding tax down the throats of the people when they would

gladly give the state twice as much through a state lottery."

LYNNE SWISHER, S.F., surrendering for \$456 bank robbery — "It's worth five years in jail to me. I've had a wonderful vacation in Hawaii."

DR. RALPH W. TYLER, Stanford Behavioral Scientist — "Psychology is for the most part so poorly taught it looks like a course in Fractured Freud."

State Scene

By JAMES DORAIS

Ever since the Cold War began, the House Committee on Un-American Activities has been the subject of bitter attack by the Communist Party.

In this continuing attack, the communists have been joined by many people and organizations of liberal persuasion who have feared that the Committee's activities tend to restrict freedom of speech, and that some of its tactics involve "guilt by association", i.e., bracketing people holding merely liberal or left-wing views with actual subversives.

Private groups that published and circulated "blacklists" and dossiers on alleged communists and communist fellow travelers have been sharply criticized for the same reasons.

Even the FBI has come under the attack of such liberals as AFL-CIO vice-president Walter Reuther, who has charged FBI Director J. Edgar Hoover with "exaggerating the domestic communist menace at every turn."

An interesting phenomenon of the current political scene is the growing use by liberals of the same tactics they have indignantly castigated conservatives for using in the past.

Liberals who bitterly denounced the linking of left-wing organizations with communists because in some instances both supported the same policies now engage in the same guilt-by-association technique, in magazine articles and speeches before Congress, by lumping together people and organizations of conservative bent with all manner of crackpot groups of the radical right.

Even the blacklist dossier gimmick has now been cheerfully revived. The Washington newsletter, Human Events, reports that an "investigating bureau" known as Group Research, Inc. has recently been formed in Washington, which prepares smear material on individuals and organizations for distribution throughout the country by the AFL-CIO Committee on Political Education (COPE).

Group Research, Inc. publishes a "Directory" of reports on "right-wing extremists" which includes listings on conservative university professors and such respected conservatives as former Representative Walter Judd (keynote speaker at the 1960 Republican National Convention), Democratic Senator Thomas Dodd, movie actor Ronald Reagan, and Los Angeles Times columnist Morrie Ryskind.

According to Human Events, "there is a major effort, through cross-indexing, to link all conservatives with as many disreputable 'extremists' as possible." Purpose of the Directory, a COPE memorandum states, is to provide material with which to alert community leaders to the danger to the commonwealth whenever anyone listed appears to fill a speaking engagement.

Operating manager of Group Research Inc. is a former official of the ultra-liberal National Farmers Union. One of its incorporators is the secretary of the Washington Chapter of the American Civil Liberties Union, the long time champion of free speech.

It seems pertinent to question, in view of their current activities, whether the members of the political left really ever meant all those harsh words they had to say about "McCarthyism" over the years.

We Only Heard

BY BILL RODGERS

TO OUR good Brother Elks we say, "Let's support our own charities; let's not con the public into supporting them for us." We make this public statement because the Elks have seen fit to make public solicitation, via telephone pitch artist, to sell blocks of children's tickets for a circus that has been booked by the Elks. (Invariably, the professional pitch artist gets kids into the act somewhere along the line.) . . . We have no objection if the Elks want to go after their own members; we have no objection if the Elks, or any other organization, offers some kind of entertainment, charge admission, hustle tickets, give the public a run for its money, and make some money . . . But we do object to an organization soliciting outside its own membership to sell its own particular charity. As we have noted in this column before, if an organization to which we do not belong cannot support its own charities, don't con us for help. We have charities of our own;

NEW BOOKS AT PORTERVILLE CITY LIBRARY

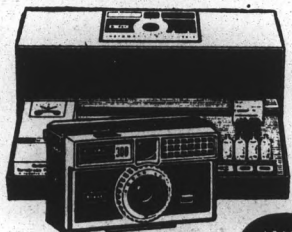

Gavin Maxwell has shortened his RING OF BRIGHT WATER for children in THE OTTER'S TALE without losing any of the charm of the original account of his captivating pet otters. The book covers only that portion of the adult book devoted to the otters, introduces a new otter, Teko, and includes many new photographs. Young readers will be as delighted as were their elders by the original book.

All children interested in American Indian lore, and Boy Scouts and Campfire Girls in particular, will find the books of Robert Hofsinde of special value. Our newest title by him is INDIAN FISHING AND CAMPING, telling how to fish and camp as the Indians did and how to make the gear that they used. Exact illustrations and drawings by the author increase the usefulness of this book. It will add to the pleasure and safety of the modern camper and to the knowledge of anyone interested in Indians. Other titles by the same author in the library are: INDIAN HUNTING; INDIAN PICTURE WRITING; and INDIAN SIGN LANGUAGE.

Mrs. Allena Best pictures the remarkably different ways in which people prepare foods and eat them, in her new book; EATING AND COOKING AROUND THE WORLD: FINGERS BEFORE FORKS. Fingers or chopsticks are still accepted eating implements from Alaska to Arabia, Japan to the Caribbean. This informative book explains how different conditions in each country has dictated the various strange habits and customs. Numerous photographs add to the attractiveness of this book.

GREAT DAY IN JAPAN: THE BIGGER FISH by Juliet Piggott tells of a special holiday in the life of a Japanese family, and the activities of the very real small boy, Taro, in particular. The excitement of the annual Boy's Festival with its fun and gifts is interestingly told with gay illustrations. It gives a picture of Japan, its family life and festival customs.

most of us do . . . So, Brother Elks, let's not bother the public with a pitch artist; let's support our own charities.

FAIR Time

TULARE'S OWN Miss Diamond Jubilee wholeheartedly, and vivaciously poses at the Tulare county fairgrounds. Sue's major at Fresno state college is recreation, and she certainly enjoys every minute of preparation for the 42nd Annual Tulare County Fair which opens Tuesday, September 17th and runs through Sunday, September 22nd. Sue loves horses, so you will probably see her

at one of the evening preparations of the horse show. Due to the large list of entries for the 31st Annual Tulare County Fair Horse Show this year the show will start the night before the fair opens, on Monday, September 16th, at 7:30 p.m. Horse show directors this year are Sue Murphy and Lou Murphy. Entries for the show will close on September 3rd.

California Highway Patrol Goal — To Reduce Accidents

PORTERVILLE, August 29 — "California Highway Patrol officers of Porterville Area will be on the road this Labor Day with one goal — to reduce accidents", Lt. Harold Parrazzo, area commander, said.

"To do it, they will enforce against those violations which cause accidents.

"We don't have to cite statistics or look at records to know what those violations are. They are very similar, year after year.

"Last Labor Day, fatal accidents investigated by the Patrol were caused by these violations — exceeding a safe speed or the posted limit, driving on the wrong side of the road, drunk driving, unsafe lane changing, and failure to observe stop signs.

"Those and other hazardous violations are the ones we will be attempting to prevent. But the motorist has a responsibility, too. He can reduce accidents by observing the law.

"Courtesy, patience, compliance with law — these are the driving attributes which will make your Labor Day motoring safer and more pleasant, too," the Lieutenant said.

The Labor Day holiday begins at 6 p.m. Friday and extends through midnight Monday, September 2.

After blackeye pea pods are fully formed, it is not advisable to continue irrigation, according to Farm Advisor Bill Sallee.

NINE SCHOOLS START SEPTEMBER 3-4 PORTERVILLE OPENING DATE 9th

PORTERVILLE, Aug. 29 — Several nearby schools have chosen Tuesday, Sept. 3rd for their opening date this year. Springville,

Strathmore, Hot Springs, Alta Vista, Citrus-South Tule, Pleasant View, Vincent-Woodville, and St. Anne's Catholic school will open next Tuesday. The Zion Lutheran Parochial school will open Wednesday, Sept. 4th.

Porterville, Terra Bella, Ducor, Richgrove, Burton, Rockford, and Hope schools are scheduled to open Monday, Sept. 9th.

\$10 Million Refund Started By Gas Company

VISALIA, Aug. 29 — Local natural gas customers are currently receiving portions of \$10.8 million in refunds as credited by the Southern California Gas company.

Coming as part of one of the largest refunds in business history, the credits are being made on current bills, according to G. A. Porter, division manager.

Customer refunds, being made as a result of the firm's continuing efforts to maintain low gas rates, are based on amount of natural gas used during May of this year. Distribution procedure has been approved by the State Public Utilities commission.

Porter pointed out that all the \$10.9 million, as provided by wholesaler El Paso Natural Gas Company, is being passed on to residential and industrial customers. The large sum is part of nearly \$15.5 million paid by El Paso to Southern California and Southern Counties Gas companies which serve 2.6 million southland residents.

Class of 1953 Reunion August 31

PORTERVILLE, August 29 — Members of the Porterville Union High School class of '53 will hold a reunion Saturday, August 31 at the Terra Bella Memorial building. Festivities will get underway at 6 p.m. with registration and social hour followed at 8 p.m. with dinner. Dancing will start at 10 p.m. and members of the class of '52 and '54 are cordially invited.

By John

If you're one of the few Californians staying home this weekend we will be around all day Saturday to help you enjoy your rest. There may not be too much that you need to do but we're sure you'll find something if you really look. For one thing the soil can be prepared for fall planting. For another thing you can prune back the bushes that have outgrown their location.

There are several things besides old tin cans and coffee grounds that can be used to improve the soil. The most practical material seems to be forest humus which is made from the bark of trees. It costs less and lasts longer than anything we have found. You may buy it in the bag or by the pick-up load. Another favorite is Vita-Peat which is an organic peat with more food value than regular peat. It is especially good for potting plants and for hanging baskets. May even be good for breakfast.

If you should do a little pruning and end up cutting it off at the ground we have some fine replacement plants. A whole truckload of new ones in fact, so come by and have a look.

Evening College Class Schedules Now Available

PORTERVILLE, Aug. 29 — The Porterville evening college classes will begin on schedule with the day college classes, which begin instruction on September 9, 1963. Sometimes the public becomes confused with the starting dates of classes in the different evening divisions, R. R. Reising reports. Classes for the evening high school do not begin until September 23, 1963. However, the Evening College office is open for registrations for the new year in any divisions of its classes from 7:00 to 9:00 p.m., on Monday-Thursday, beginning August 26, 1963. It is best to make class choices as early as possible, Reising advises, as classes must have minimum enrollments before teachers are called to duty. If no interest is indicated in the class, much time is saved by the office by dropping it from the list.

It is a convenience to all concerned to process registrations at

the evening school office, in person, Mr. Reising urges. Several clarifications need to be made in the registration papers and require personal office attention.

New class schedules are now available for any of the evening divisions at the office, or, mailings are made upon request. Copies of the schedules are also in the Public Library. Calls to the evening school office clear through telephone 784-7000, Extension 66.

CHAPEL CHIMES

By
Rev. N. J.
Thompson

Water moccasins and rattlesnakes are dreaded for good reason — their venom is deadly. Unless prompt aid is forthcoming, the victims of their bites die. Even more deadly is a snake the Bible describes as "that old serpent, called the Devil and Satan, which deceiveth the whole world," Revelation 12:9.

He it was who deceived Eve in the Garden of Eden, telling her that God did not mean what He said about disobedience bringing the punishment of death.

No wonder Jesus angrily denounced Satan as a "murderer" and as a liar and the father of lies (John 8:44). The devil's lies murdered Adam and Eve — and the cemeteries of the world have been filled with dead men ever since. The devil still strides upon the world, sowing lies, deceit, and discord, hoodwinking men into believing that black is white and sin is "fun".

The Bible says an angel will one

day shut up that old serpent in the bottomless pit for 1,000 years, "that he should deceive the nations no more, till the 1,000 years be fulfilled." Then the world will be like heaven, without the devil to lead men into mischief.

In the meantime, it is well for men to recognize how deadly is that old serpent called Satan. He is opposed to everything that is true and good and noble. Desperately he tries to bury God's truths with his lies.

Fortunately the Bible shows plainly how we defeat Satan. When the Israelites were dying in the desert from poisonous snake bites, Moses raised a wooden cross, and ordered the victims to look at it. That cross was a symbol of Christ's cross. And everyone who looked at it found healing and life. Christ remains the only cure for the sting of death.

Edison Company, Agencies Agree On Kern Water

SACRAMENTO, Aug. 29 — An agreement between a private utility company and three public agencies which will guarantee water releases and provide other protective measures for fish and wildlife on a portion of the Kern river has been approved by the California Fish and Game commission.

The agreement involves the Southern California Edison Co., the U.S. Bureau of Sport Fisheries and Wildlife, the U.S. Forest Service, and the California Department of Fish and Game. The agreement culminates more than two years of study and negotiations.

The major part of the agreement is the provision for water releases from Edison's Fairview Division dam on the Kern river, Tulare county, which diverts water for the generation of hydroelectric power at the KR-3 powerhouse in Kern county.

A release schedule which is part of the agreement provides that between 40 and 100 cubic feet of

Economic Position Of Poultrymen Declines In 1962

SACRAMENTO, Aug. 29 — There was very little, if any, improvement in the economic position of California poultrymen in 1962, and poultry feed-price ratios were even less favorable than in 1961 for farm chickens, eggs and turkeys, according to the California Crop and Livestock Reporting Service.

California egg production was at a record 6.9 billion in 1962, up 11 percent from 1961. This increase in egg production over the previous year resulted entirely from an increase in the number of layers. Eggs per layer was unchanged.

Egg prices during 1962 averaged 30.4 cents per dozen, the lowest since 1941. Cash receipts from eggs to California producers, totaled 174.0 million dollars as compared with 173.8 million dollars in 1961.

Commercial broiler production in California during 1962 totaled 60.4 million birds down 4 percent from 1961. However, gross income from broilers was 6 percent more than was received by producers in 1961.

For the first three months of 1963, the number of hens and pullets of laying age on California farms and ranches was seven percent larger than for the comparable period in 1962.

During the January-March period, there were 16.6 million broiler chicks placed in California as compared with 16.7 million in the corresponding period a year earlier.

water per second (depending on the season) will be released into the river during years of normal runoff, and between 25 and 90 cubic feet per second during dry years.

This will improve conditions for trout, wildlife, and recreation in a 16 mile stretch of the Kern river which previously has contained as little as two cubic feet of water per second. Resident rainbow trout and brown trout will be particularly benefited by improved stream flows.

DFG Director Walter T. Shannon said he was very pleased with the agreement. "It is a prime example of how co-operation between private and public agencies can benefit everyone through the application to our resources of the multiple use concept."

California sugar beet production this season is forecast at 5,920,000 tons from 296,000 acres; both production and acreage will hit an all-time high if realized at harvest.

RECREATION, AGRICULTURE, INDUSTRY TO BE FEATURED IN COUNTY CHAMBER FAIRS EXHIBIT

VISALIA, Aug. 29 — Domer F. Power, president of the Tulare county chamber of commerce, and David Chamberlain, chairman of the county chamber's fair committee have announced that when the gates opened at the California State fair in Sacramento August 28, Tulare county was ready to tell 1963 fairgoers the story of our county's bountiful assets.

An attractive, dignified booth, 20 ft. by 12 ft. in size prepared by the Fair committee, features a colored slide presentation depicting the Tulare county's three phase economy, namely agriculture, industry and recreation. A-

California turkey growers indicated that they intended to raise five percent fewer turkeys in 1963 than were raised in 1962. For the United States, the survey results indicated growers' intentions to raise three percent more turkeys in 1963 than the number raised in 1962.

California poult hatchings during the period September, 1962 through April, 1963, were 11 percent less than the number hatched during the comparable period a year earlier.

CHANGES LISTED IN FRUIT, NUT, GRAPE ACREAGES

SACRAMENTO, Aug. 29 — There was a combined total of 1,478,284 acres of fruits, nuts and grapes in California in 1962 (as compared to 1,480,223 acres in 1961), of which 1,229,129 are classed as bearing, and 249,155 nonbearing, according to the California Crop and Livestock Reporting Service.

Some of the significant acreage changes are listed as follows: lemons showed the largest drop, decreasing over 8 percent, from 55,169 acres to 50,357 acres. Royal Ann cherries also dropped slightly over 8 percent from 3,932 acres to 3,654 acres. Freestone peaches decreased 7 percent, from 43,342 acres to 40,449 acres. Nectarines decreased 6 percent from 11,634 acres to 10,904 acres.

Apples, other than Gravensteins, decreased over 6 percent from 22,396 acres to 20,974 acres. Pears, other than Bartletts, decreased more than 9 percent from 3,858 to 3,486 acres. Navel and Miscellaneous oranges combined increased 4 percent, from 79,914 acres to 83,032 acres.

There were small changes in other crops: pullouts and dieouts were generally offset by new bearing acreage, giving a slight loss however, in the total acreage in the State.

companying taped narration describes the pictures as they appear on a 4x4 silk screen.

Projection and sound equipment is situated behind a beautiful exhibit background featuring the tasteful use of Cherry wood paneling on which is displayed enlarged black and white photographs of Tulare county's economy. Ample supplies of informative, descriptive literature is available at the booth for those seeking information.

At least two members of the county chamber's fair committee will be present at the booth to answer questions and distribute brochures and etc.

During the opening festivities, Miss Tulare County of 1963, Barbara Calkins, bestowed upon the exhibit her beauty, charm and personality. On August 28 and 29 Miss Calkins, who placed among the top 10 in the recent Miss California contest, will be among the many contestants seeking the title of the Maid of California contest, held each year in conjunction with the opening of the State fair. Her entry is again being sponsored by

TONSILLITIS in the GOOD OLD DAYS

Not so long ago, tonsil infections were a common source of trouble. Acute tonsillitis sent innumerable people to bed, and led to serious complications particularly in children. Tonsil extractions became one of the most frequently required kinds of surgery.

Today all this has been changed. A few dollars' worth of modern prescription drugs makes the difference. An antibiotic (penicillin, for example) often checks the tonsillitis attack within 48 hours. Visits to the hospital for tonsil extraction have also been greatly reduced.

Thus you can see how today's prescriptions do much to reduce the total cost of an illness. Only 15 prescriptions in a thousand cost as much as \$10. The average one costs only \$3.26. No wonder we say: "Today's prescription is the biggest bargain in history."

College Football Squad Has 13 Returning Lettermen From Last Year's Co-Champion Team

PORTERVILLE, Aug. 29 — A nucleus of 13 returning lettermen from last season's conference co-champion team will greet Coach Allen Nelson when football practice starts at Porterville College on Monday, September 2.

Nelson, who is succeeding Pat Mills as head coach at the Pirate school, will be assisted in handling the squad by Bill Jameson and Carl Elder. He said football equipment would be issued Saturday, August 31, between 9 a.m. and 5 p.m., and that the first practice session is scheduled for 8 a.m. on

the following Monday.

If prospects we are counting on enroll," Nelson said, "we could have an excellent team. However, we will be hampered by our limited numbers."

The Pirates will face their toughest foe of the season, College of the Sequoias, in a non-conference opener at Visalia on September 14. The Giants now are members of the Valley conference, composed of larger schools.

Other non-conference opponents will be Antelope Valley JC at Lancaster, September 21; College of the Desert at Palm Desert, October 5; Fresno State College junior varsity at Porterville, November 2; and San Fernando State College junior varsity at Porterville, November 11.

Conference games will be Coalinga at Porterville, September 28; Allan Hancock at Santa Maria, October 12; Taft at Porterville, October 19; and Porterville at Reedley, October 26.

TWO-MEMBER FACULTY FOR JOHNSONDALE

PORTERVILLE, Aug. 29 — California's smallest high school, operated at the mountain lumber town of Johnsondale by the Porterville Union High School and College district, will open its fall time with a faculty of two full-time instructors and two others who will serve part-time.

Students attend the school in the Kern Canyon 40 airline miles southeast of Porterville because it is uneconomical to transport them to larger attendance centers, and would be almost impossible during the winter months.

Mr. and Mrs. Burl Thompson, who have had long teaching experience in the Southwest, will be starting their second year as full-time faculty members. Mr. Thompson serves as principal, and both teach academic subjects to the 25-30 students who attend.

The school plant now has two classrooms, and a near-by shop building. Mr. and Mrs. Paul Stamm serve as part-time teachers for the branch high school. Mr. Stamm teaches shop, mathematics, and physical education, while Mrs. Stamm has classes in art and home economics.

Most of the students are children of mill or timber workers, and are interested principally in learning job or homemaking skills. Some go on to college.

All Didget Dialing Set For November

Local telephone subscribers will soon be receiving their new all-number phone numbers, Pacific Telephone Manager R. C. Board said today.

Subscribers who do not already have seven-digit phone numbers will receive in the mail a form with "punch-out" number cards which can be mounted over the old number plate on the telephone dial.

Businesses with more than four phones will be visited by telephone installers who will replace the old number plates.

Board said the new numbers will go into effect in November when the new Kings and Tulare Counties directory is delivered. At that time, all phone listings in this area will be converted to the new numbering system.

The switch to all-digit phone numbers will not involve complete number changes for most customers, Board said. Only the letter prefix will be changed by substituting the corresponding numbers on the dial. For example, a typical All-Number Calling (ANC) phone number in Porterville will become 784-0400 instead of SU 4-0400.

Many local telephone users already have ANC phone numbers, Board said. Beginning two years ago, the company assigned the new numbers to all persons starting or transferring telephone service in this area. By 1965, Pacific Telephone expects to have all telephone numbers converted to ANC.

The organization's revolving fund is on a five-year cycle.

Beef Council Office Is Moved To Redwood City

SAN FRANCISCO, Aug. 29 — The California Beef Council has moved from offices in the Flood building in San Francisco to new quarters in Redwood City.

Walt Rodman, manager of the Council, stated that the move would provide much needed warehouse space and a shipping room for the millions of pieces of point-of-sale material handled by the council. Rodman added that the move would also mean a saving of \$2,000 annually in rents that are now paid out at two different locations in San Francisco.

The new council address will be 463 Brewster avenue, Redwood City, Calif. Phones: Area Code 415, 369-3327, 369-3328.

The new location is directly adjacent to the Bayshore freeway in the area of the old Franks Tannery 13 miles from the airport and 25 miles from downtown San Francisco.

RECREATION,

(Continued From Page 4)

the Tulare county chamber of commerce.

Following the closing of the State fair, the county exhibit will be transported to the Los Angeles County fair which opens a week's run in Pomona on September 13. The Tulare county story will also be told at the Tulare County Fair September 17-22, and at the National Raisin festival in Dinuba September 28-29.

BARBARA CALKINS, Miss Tulare County, radiates the spirit of fair time at the Tulare county fairgrounds as she feeds one of the many horses now in the horse barns at the fair. Barbara loves horses, and just returned this month from a 15 day pack trip into the Mt. Whitney area with her girl friend Miss Carla Cloer, last year's Miss Tulare County.

CALCOT MAKES FUND PAYMENT

BAKERSFIELD, Aug. 29 — Payment of \$1,375,000 in revolving funds is being made to members of Calcot, Ltd., who delivered cotton in the 1957-1958 season to the grower-owned marketing organization. Russell Kennedy, General Manager, said the payment represents members' investments in Calcot at the rate of \$3 per bale.

Lawrence Welk Top Performers Here Oct. 16 For Kiwanis Kapers

PORTERVILLE, Aug. 29 — Accordionist Myron Floren of Lawrence Welk band fame will be one of the featured attractions at the Kiwanis Club's 15th annual Kapers, it was announced by Kapers chairman Dick Shafer. The program will be a benefit affair October 16th at the Memorial auditorium.

Other outstanding acts will include Bobby Burgess and Barbara Boylan, the Welk dance team; and the Del Rubio Triplets of Panama, formerly with the Bob Hope Shows; also The Hardy Family, acrobatic act; The Koreans, novel-

LEGAL NOTICE

OFFICIAL NOTICE OF SALE OF SCHOOL DISTRICT BONDS

NOTICE IS HEREBY GIVEN that sealed proposals will be received by the Board of Supervisors of the County of Tulare, State of California, at the office of the said board of supervisors in Room 301 of the Tulare County Courthouse, City of Visalia in said County, California, on Tuesday, the 17th day of September, 1963, at the hour of 10:00 o'clock A.M. for the purchase of bonds of Burton School District, of Tulare County, State of California, more particularly described below:
ISSUE: \$50,000.00, 1963 School Bonds, consisting of 50 bonds of the denomination of \$1,000.00 each, numbered 1 to 50 inclusive.
DATE: All of said bonds are dated September 17, 1963.

INTEREST RATE: Maximum five (5) per cent per annum, payable annually for the first year on September 17, 1964, and semi-annually thereafter on March 17 and September 17 in each year. Bidders must specify the rate of interest which the bonds hereby offered for sale shall bear. Bidders will be permitted to bid different rates of interest and split rates irrespective of the maturities of said bonds. The interest rate stated in the bid must be in a multiple of 1/8 or 1/20 of one per cent per annum, payable as aforesaid.

MATURITIES: Said bonds mature serially in consecutive numerical order from lower to higher (without option of prior redemption) as follows:

Principal Amount	Maturity Dates
\$3,000	September 17, 1965
3,000	September 17, 1966
3,000	September 17, 1967
4,000	September 17, 1968
4,000	September 17, 1969
4,000	September 17, 1970
4,000	September 17, 1971
4,000	September 17, 1972
5,000	September 17, 1973
5,000	September 17, 1974
5,000	September 17, 1975
6,000	September 17, 1976

PAYMENT: Both principal and interest payable in lawful money of the United States, at the office of the county treasurer of said county.

EXECUTION AND REGISTRATION: Coupon bonds will be issued by said board of supervisors on behalf of said district. Said bonds will be executed by the manual signature of at least one official authorized to execute the bonds. Such bonds are registerable only as to both principal and interest.

PURPOSE OF ISSUE: Said bonds were authorized by more than two-thirds of the voters voting at an election held in said district on May 28, 1963 and will be issued and sold for the purpose of raising money for authorized school purposes.

SECURITY: The bonds are general obligations of said district, and said board of supervisors has power and is obligated to levy ad valorem taxes for the payment of said bonds and the interest thereon upon all property within said district, subject to taxation by said district (except certain intangible personal property, which is taxable at limited rates), without limitation of rate or amount.

TAX EXEMPT STATUS: In the event that prior to the delivery of bonds the income received by private holders from bonds of the same type and character shall be declared to be taxable under any federal income tax laws, either by the terms of such laws or by ruling of a federal income tax authority or official which is followed by the Internal Revenue Service or by the decision of any federal court, the successful bidder may at his option prior to the tender of said bonds by the board of supervisors, be relieved of his obligation under the contract to purchase the bonds and in such case the deposit accompanying his bid will be returned.

LEGAL OPINION: A copy of the legal opinion of any attorney selected by the successful bidder, approving the validity of said bonds, certified by the official in whose office the original opinion is filed, will be printed on each bond if requested by the successful bidder in his bid; provided, however, that the attorney's fees for said legal opinion and the expense of printing said legal opinion on the bonds shall be paid by the successful bidder.

TERMS OF SALE

HIGHEST BIDDER: The bonds will be awarded to the highest responsible bidder or bidders considering the interest rate or rates specified and the premium offered, if any. The highest bid will be determined by deducting the amount of the premium bid (if any) from the total amount of interest which the district would be required to pay from the date of said bonds to the respective maturity dates thereof at the coupon rate or rates specified in the bid and the award will be made on the basis of the lowest net interest cost to the district. The lowest net interest cost shall be computed on a 360-day year basis. The purchaser must pay accrued interest from the date of the bonds to the date of delivery. The cost of printing the bonds will be borne by the district.

RIGHT OF REJECTION: Said board of supervisors reserves the right in its discretion to reject any and all bids and to waive any irregularity or informality in any bid.

PROMPT AWARD: The board of supervisors will take action awarding the bonds or rejecting all bids not later than 24 hours after

the expiration of the time herein prescribed for receipt of proposals unless such time of award is waived by the successful bidder.

PROMPT DELIVERY: Delivery of said bonds will be made to the successful bidder at the office of the county treasurer of said county as soon as the bonds can be prepared which it is estimated will be within 30 days from the day of sale, (but not prior to the date of the bonds).

RIGHT OF CANCELLATION: The successful bidder shall have the right, at his option, to cancel the contract of purchase if the bonds are not tendered for delivery within 60 days from the date of sale thereof, and in such event the successful bidder shall be entitled to the return of the deposit accompanying his bid.

FORM OF BID: All bids must be for not less than all of the bonds hereby offered for sale, and for not less than the par value thereof and accrued interest to date of delivery. Such bids, together with bidder's check, must be enclosed in a sealed envelope addressed to the board of supervisors of said county, and endorsed "Proposal for School Bonds of Burton School District of Tulare County."

BID CHECK: With each bid must be submitted a certified check or cashier's check for \$250.00, drawn on a bank or trust company transacting business in the State of California, payable to the order of the county treasurer, to secure said district from any loss resulting from the failure of the bidder to comply with the terms of his bid. In addition bidders are requested (but not required) to supply an estimate of the total net interest cost to the district on the basis of their respective bids, which shall be considered as informative only and not binding on either the bidder or the district. Checks of all bidders except the successful bidder will be returned by mail promptly following the sale date above specified. No interest will be paid upon deposit made by the successful bidder.

NO LITIGATION: There is no controversy or litigation pending concerning the validity of the above issue, the corporate existence of said district, or the title of the officers to their respective offices and the board of supervisors will deliver to the successful bidder a no-litigation certificate certifying to the foregoing as of and at the time of the delivery of the bonds.

Dated: August 13, 1963.

Property Taxes

Due September 3

VISALIA, Aug. 29 — Tulare County Tax Collector J. A. Janeli announced today that the deadline date of payment of unsecured property taxes will be September 3rd because of the fact that August 31st deadline falls on a Saturday.

A penalty of 8 percent of the total amount due attaches at the close of business September 3, 1963. Immediately thereafter, action will be initiated under the ap-
ty dance act. Banjo humorist Ben Card will officiate as master of ceremonies.

Proceeds derived from the show go into the Kiwanis' Club fund raising program for assistance of underprivileged children locally.

Birthday Calendars Go On Sale

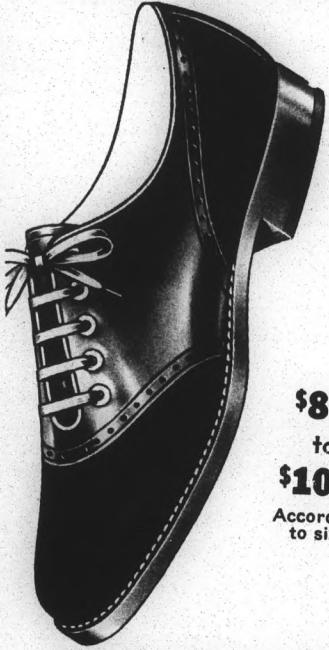

PORTERVILLE, Aug. 29 — The Breakfast Lions opened their annual Birthday Calendar Sales on Tuesday morning, August 27th. The profits derived from this project go to various charities in the community. Each year a certain number of inquiries have been received as to how these calendars can be acquired after it is too late to get the calendar. Therefore, we would like to inform the public that between now and October 1st anyone who wishes may contact any Breakfast Lion for the details on securing one of these calendars.

Dinner To Honor Julie Ann Campos

PORTERVILLE, Aug. 29 — Julie Ann Campos will be a guest of honor at a Mexican dinner Saturday, August 31. Miss Campos is running for queen of the Mexican Independence Day celebration. The dinner will be held at the Guadalupe Church on Wallace st., starting at 6:30 p.m. Adults \$1.00 per plate and children 50c.
